HEYTESBURY BIRD PAVILIONS HEN HOUSES

Palladian Chicken House

Influenced by the buildings of Pompeii this classical design has applied pilasters in the Palladian manner.

H. 50" W. 75" D. 40" **£2,800.00**

Scottish Baronial

With its flying turrets (Bartizans) this typical Scottish country house must vie with our Stockholm duck house for the title of 'Grandest Bird Pavilion'.

H. 55.5" W. 75" D. 38" **£3,600.00**

Our chicken houses, like all our pavilions, are architectural fantasies - but having said that, they are practical chicken houses too. They have four laying bays accessed through hinged hatches at either end of the house. Both lower side sections lift off for cleaning. The houses have carrying handles at each end for easy portability.
